A schematic diagram of a road intersection. A horizontal road (140) intersects with a vertical road (142). A dashed line (141) runs vertically through the intersection. A car (143) is shown on the horizontal road (140). A car (145) is shown on the vertical road (142). A car (146) is shown on a side road (144) that branches off to the left from the horizontal road (140). A car (147) is shown on a side road (148) that branches off to the right from the horizontal road (140). A car (149) is shown on a side road (150) that branches off to the left from the vertical road (142). A car (151) is shown on a side road (152) that branches off to the right from the vertical road (142). A car (153) is shown on a side road (154) that branches off to the left from the side road (144). A car (155) is shown on a side road (156) that branches off to the right from the side road (148). A car (157) is shown on a side road (158) that branches off to the left from the side road (146). A car (159) is shown on a side road (160) that branches off to the right from the side road (150).
